OVERVIEW

I am a self-motivated front-end/web developer with an unending curiosity to learn new technologies and trends related to web development. I love writing code aligned with industry best practices, ensuring that other developers are able to easily understand and utilise my code. Picking up a new language or framework for a project isn't a problem.

Team player. Flexible. Fast learner.

TECHNICAL SKILLS

- Excellent in HTML5, CSS3, Bootstrap and ZURB Foundation
- Hands-on experience with Angular, React, Angular Material, Laravel, JavaScript and NPM
- Excellent in utilising CSS pre-processors (SASS)
- Excellent in version control system (Git)
- Good at CMS development (WordPress)
- Basic knowledge of Vue.js, Ruby on Rails, React Native, MongoDB and MySQL
- Fundamentals of SEO, Google Analytics and Google Search Console
- Hands-on experience with Adobe Creative Cloud (Photoshop and Illustrator)

SOFT SKILLS

- Excellent communication skills
- Able to work independently and as part of a team
- Commitment and dedication towards work
- Time management and work under pressure
